

PROSPECTS OF UNION SPLIT NOT CHANGED

Conference Clarifies Authority Of Two Central Bodies

OTTAWA, Dec. 23.—Prospects of an organic split in the ranks of international trade unionism in Canada were not materially changed by Saturday's Washington conference between officials of the American Federation of Labor and the Canadian Congress of Trade Unions. R. F. Taliot, secretary-treasurer of the Canadian Congress, indicated today he has withdrawn Washington.

The conference had served to clarify the authority of two central bodies, and, secondly, in phasing the total independence of two friendly organizations.

"The A. F. of L. never has had legislative power over the congress and has no intention of trying to assume any," Mr. Taliot declared.

He said the Canadian Congress' authority over legislative affairs, including local trade councils.

The A. F. of L., on the other hand, had absolute authority over international disputes between affiliated unions both in the United States and Canada. For this reason, the division of the Canadian section of the Congress of Industrial organizations being associated with A. F. of L. units in the Canadian congress was not a matter for the A. F. of L. It was not a matter between the Canadian congress and the A. F. of L. and its constituent A. F. of L. and its own constituent unions.

Highway Work Will Be Done

In Sudbury Area

SUDBURY, Ont., Dec. 23.—A tenth of the \$2,000,000 recently appropriated by the Dominion and Ontario governments for highway construction in northern Ontario will be spent in Sudbury area, James M. Cooper, Liberal member of the Ontario legislature for Sudbury, said today. The money, he said, would be spent on the section of the trans-Canada highway between Sudbury and Negaunee about 20 miles east of Sudbury.

Frost Hits Apples

BOSTON, Dec. 23.—May frost and the September hurricane cut New England's apple crop 20 per cent below that of the previous year, the New England crop reporting service announced today. The New England total was reported at 6,447,000 bushels, compared to 8,456,000 in 1937 and the 10-year average production of 9,460,000.

White Yule

temperatures in sight for the three provinces. So open has the season been in Alberta so far this winter except for a few days still are forcing their own feed.

HEAVY SNOWFALLS

All of the provinces, Ontario had the best chance of enjoying a white Christmas, but heavy snowfalls were reported from eastern, central and western sections of the province. Toronto, Ontario, got the freezing mark, 32 degrees above zero, and the forecast was that they would go higher.

Some snow fell during the night in some parts of the maritime provinces and some was promised but the Quebec remained clear.

Snow, Sleet Covers Middle West States

CHICAGO, Dec. 23.—Snow and sleet covered most of a half dozen middle western states yesterday and the weather forecaster said more would arrive before Christmas.

A storm of blizzard proportions swept northern Wisconsin and the upper Mississippi valley. The snow was slow and in some places halted by drifting snow. A five-inch fall was recorded at Milwaukee.

Two traffic deaths in Chicago were attributed to the storm.

M.D.'s Responsible For "After Care" Of Tb. Indigents

TORONTO, Dec. 23.—Hon. Harold J. Holt, Ontario minister of health, and his wife, were in Ottawa for public welfare, working on a joint statement today that municipalities are responsible for adequate "after care" of indigent tuberculosis patients discharged from sanatoria where they had been maintained at the expense of the province.

Where King, Queen Will Stay In Ottawa

Early in January steps will be taken to remove the King and Queen from the Canadian Parliament building, to put it in readiness to receive the King and Queen when they arrive in Canada next May. The King's birthday celebration, now set for May 26, for Canada is concerned, will occur while their majesties are visiting the Dominion's capital.

Skyscraper Apartments Too Hot In Summer, Leak In Fall, Cold In Winter

PARIS, Dec. 23.—The two million-dollar apartment house which was too hot in the summer, leaked in the fall and was too cold in the winter that even sturdy mobile guides could not stand it.

An investigation was started after 700 shivering guides—reputedly the toughest in France's armed forces—had complained that the apartments were too hot. The rest left in the fall when rain poured through the roofs.

When the guides moved in with their families, were moved in with the government early this winter. The guides sent their families out, and the guides who had finally decided they could not take it when thermometers inside the apartments registered 21 degrees above zero Fahrenheit.

should use all reasonable means to protect the interests of Americans nationwide.

King a vigorous effort, told reporters.

Germany, if she continues her heretic persecution of the Jews, is to interfere with her economic development.

Official Statement Is Expected Soon

BY RUDOLF JOSTEN

Associated Press Staff Writer

BERLIN, Dec. 23.—Two authorities, "rapporteur" and "abrogation of German-American relations," have been mentioned in the speech of I. L. Ikes, 64-year-old secretary of the interior of the United States.

A government spokesman indicated an official statement could be expected soon and one official said the speech had become a serious affair.

Chancellor Hitler's newspaper, Voelkischer Beobachter, printed a front page headline with the caption: "I. L. Ikes, 64-year-old secretary of the interior of the United States, has assumed responsibility for America's relations with Germany and has developments toward a rupture. We pose his machinations."

He added: "This darling of Judah is of German origin and reared with feelings

of anti-Semitism."

Field Marshal Hermann Goering, newspaper, the National Zeitung of Berlin, quoted Ikes as saying: "The case of Counter-Marshal drug king case and . . .

SCANDALOUS HAPPENINGS

"What has Ikes to say? Answer: I am not nothing—absolutely nothing."

He also denied that the scandalous happenings in the United States, which again was proved to the Carter case because he fell off a take decisive step to condemn crime.

He rather prefers to deliver hand-in-hand speeches against Germany, nothing but nothing.

He also denied that he was a son of the Cleveland Zionist society.

He said: "It is not fair to the middle ages to compare present-day European dictatorships with that period of history when men were compelled to go back into that period of history when man was unlettered, benighted and beastly."

MEMORABLE BIRTHDAY

One of the most memorable days in the life of a man is his 100th birthday. The day falls on Aug. 4, and in 1938 she was in London to attend a special trip to the theatre. Both actors and actresses were aroused by news of the declaration of war and in the streets outside the Savoy Hotel, the Savoy Theatre and the tram of marching columns.

Within a week all four of the British royal family—King George VI, Queen Elizabeth, Prince Philip and Princess Margaret—had joined the army.

Glamis was undergoing her training at the Royal Naval Air Station, Lee-on-Solent, Hampshire, England, when the big streamlined ship broke in two after landing from a test flight near Farnborough, England, but she might make the crossing next year.

Soon after Julian Doherty sent the prince ashore and following a short time later, he ordered a spell of lay duty. The newborn air service was still without a royal recruit and the prince was attached to the Royal Navy Air Service.

It is recorded that on the day he was to take his final test as a pilot he was told he must fly solo as he was strongly advised not to go up that day. But this suggestion did not appeal to the prince, with the result that he took off, it being over my head," he went up and down with flying colors.

Since then he has been a regular at Nancy, France, he steadily progressed up the ladder through wing commander to wing commander to become group captain before peace came.

FLYING LINKS TRANS-CANADA THROUGH 1938

Nation Makes Headway In Air Routes Pending Completion Empire Chain

By W. H. WARD

Canadian Press Staff Writer

OTTAWA, Dec. 23—Canada, in 1938, turned from trans-Atlantic to trans-Canada flight, and the movement of domestic airlines against the day when the trans-Atlantic service would really.

The first productive operation of the Trans-Canada airline, a little younger among the world's major airlines, has been to capture controlled airline god-downs to business in earnest after painstaking planning.

First link in the eventual coast-to-coast chain was completed in the west, with airports ready to receive passengers and planes ready to carry them safely through the dark and over the clouds. This took a dozen flights of the 10-passenger Lockheed "14s" and started shuttle back and forth between Vancouver and Victoria, carrying first mail then adding express packages.

REGULAR SERVICE

TCA planes went on regular service, and the service will be expanded to cover the entire coast as soon as ironed out of the new line and it can function with perfect efficiency.

Trans-Canada's system of airways will plan an important role when Atlantic service comes into being. The big ocean-flying boats will be used to bring mail and passengers in Vancouver just a few days after leaving London.

Canada saw only one trans-Atlantic plane this year. The Mercury was launched into the air from the port of Montreal on July 20 and glided to the surface of the St. Lawrence River at 10,000 feet.

At the end of the month the Mercury had passed the 20,000-mile mark in 100 hours.

Continuation of the project road extended it to be of great military importance as well as provide a valuable asset to the tourist industry.

Chapman, head of the project road, considered it was of great military importance as well as provide a valuable asset to the tourist industry.

The highway but the road was ready to be used.

Grand Fleet the Collingwood took on the cruise, Derriford and fought off some destroyers. The big battleship was the lead ship. As a high point of the engagement the youthful prince was sent to make a speech for the sweating gun crew.

The Duke of York was the lead ship upon the Collingwood but herself was badly crippled. After the battle the Duke of York was sent to repair damage to the Prince of Wales for courage and coolness under fire.

The King still has a cherished memory of Jutland in one of the most dramatic scenes of the war—during the battle he once made a humorous reference to the Duke of York's "old fashioned" evening stock in his home. "Let me make the cooks," he said to his wife and guests. "I know all about you."

Soon after Julian Doherty sent the prince ashore and following a short time later, he ordered a spell of lay duty. The newborn air service was still without a royal recruit and the prince was attached to the Royal Navy Air Service.

Scheduled flights of the Alberta, a four-engined aerial giant, began yesterday. The first flight was made by Captain C. G. Carter, and the big streamlined ship broke in two after landing from a test flight near Farnborough, England, but she might make the crossing next year.

Meanwhile, ground engineers labored between Montreal and the Arctic to prepare the northland for the inevitable extension of the air route to the Arctic coast.

LIMA PARLEY SLIPS IN FOG OF INDECISION

Question Of Solidarity and
Defence Winds Up In
Confusion

By ANTHONY HERING

Associated Press Foreign Staff
LIMA, Dec. 22.—The question of western hemisphere solidarity and defense slid today into as deep a fog of confusion as the Pan-American conference has yet seen.

With Dr. Cario Concha, president of the conference, declaring flatly "we already have reached an agreement," while the United States and Argentine delegations denying an agreement had been concluded, the delegates could not figure out where they stood.

Following Concha's statement last night that 20 republics had agreed to a declaration of continental solidarity and defense, everyone thought an accord must have been reached and began to celebrate.

DELEGATES DEMUR

But the celebrations were sobered when Argentine and Brazilian delegates demurred and Afranio Melo Franco, head of the Brazilian delegation, demanded that Concha why he had made the statement.

It was believed negotiations, which may produce an agreement, were being carried on directly between Buenos Aires and Rio de Janeiro. Some delegations, however, felt no final agreement, a new declaration, was agreed upon during the Argentine-Brazilian conversations and that the declaration was the result of the two countries here.

WOULDN'T ACCEPT

They said this was the reason Argentina and Brazil would not accept the declaration which Concha said had been agreed to.

The declaration on which Concha said all 20 republics had agreed contained far-reaching provisions under which the American republics were to "co-operate to maintain and defend" their continental solidarity "against all foreign interventionist activities."

Concordance, the document had been drafted by Argentina and accepted by the other republics with slight modifications.

Seek To Show Way Out Of Impasse

LIMA, Dec. 22.—The president of Argentina and Uruguay and the heads of their delegations were said today to have agreed to show the Pan-American conference a way out of its impasse on the vexed question of hemispheric solidarity and defense.

Reliable Brazilian informants asserted the conference had received a copy of the declaration from the United States and Argentina and it was likely to be substituted for an Argentine declaration on which agreement was announced by Dr. Concha at the end of his speech. Dr. Concha, the Lima press was told, had been drafted by Argentina and accepted by the other republics with slight modifications.

NEAR FULL APPROVAL

The Brazilians said nearly all delegations had signed the formula and it was likely to be substituted for an Argentine declaration on which agreement was announced by Dr. Concha at the end of his speech. Dr. Concha, the Lima press was told, had been drafted by Argentina and accepted by the other republics with slight modifications.

Secretary of State Cordell Hull, head of the United States delegation, went to the conference hall early for consultation with Concha on the much-debated issue.

**MERCY Flier
ARRIVES AT
FORT WINNIS**

SIOUX LOOKOUT, Ont., Dec. 23.—Pilot Art Schade of Canadian Airways arrived at Fort Winnis, on the shore of Lake of the Woods, on Thursday with medical supplies for frost-bitten Indians. Schade had stopped off at Sioux Lookout after a 450-mile flight to Fort Winnis.

He is expected to bring to Sioux Lookout a team of medical men an Indian who is reported in critical condition from exposure. He was one of a hand caught in a blizzard which killed nine Indians.

As some weather permit, the pilot will leave Fort Winnis his first stop may be Big Trout Lake, Canadian Airways gasoline cache now at 1000 feet. He may not make the first lap as fast as Picke Crow lake, about 360 miles from Sioux Lookout. Canadian Airways officials said it would depend whether permitting that he will return late Saturday.

**Flagrant Violation
Non-Intervention
Pact Is Charged**

LIMA, Dec. 22.—The arrogant Spanish government defied a note to the foreign office Thursday charging Frans with "flagrant violation" of the non-intervention agreement.

Delivered by the Duke of Alba, General Secretary of the League, the note said France supplied torpedo and other ammunition to the Spanish naval destroyer Jose Luis Diaz now at Gibralter.

The note further maintained sailors from the French navy had joined the crew of the Jose Luis Diaz.

— And He Wishes Her A Merry Christmas

MARTIN SNYDER

Ordeal of the trial shows on the faces of Martin Snyder and Ruth Etting, pictured in Los Angeles, where the radio singer's divorced husband was tried for the shooting of Myrl Alderman, Miss Etting's former accompanist. Snyder was convicted of attempted murder and will spend a term in jail. He said, "With the little girl a Merry Christmas."

Ruth's Ex-Mate Guilt Found By Jury: He Faces Prison Term

LOS ANGELES, Dec. 23.—It will be a cheerless Yuletide for Martin Snyder, the radio singer, in the long years when

he made \$800,000 as a radio singer, for a jury convicted him today of attempting to murder his successor as her husband, Myrl Alderman.

The conviction carries a penalty of up to 20 years in prison.

He took the just almost 48 hours to digest the terrible news in the complaint. Snyder was found guilty of attempting to murder Miss Alderman, his 21-year-old daughter. Edith, by his first marriage, also died last year, attempting to kill his 21-year-old daughter.

Edith, by his first marriage, also died last year, attempting to kill his 21-year-old daughter.

"Buy a Paper!"

The Frontiersmen should meet with a hearty welcome and a generous response today when they appear on the streets to sell copies of The Bulletin in order to raise money for the Not Forgotten Fund. At the cost of time and trouble to themselves these men have undertaken in this way to help provide Christmas cheer for their former comrades who are now in hospital by reason of war injuries.

More money is needed to bring the Fund up to its usual proportions; the Frontiersmen deserve success in their efforts; and in patronising them the passer-by will feel that he is also expressing his thanks to the many others who in numerous ways have contributed time and services to the cause. The entire proceeds of the sales will go to the Fund, and the newboys will suffer no loss because for this day they are having a holiday with pay—while the Frontiersmen carry on in their stead.

Christmas Is Christmas

The Christmas season is being marked, as usual, by the release from prison in Alberta—as elsewhere—of some who were given terms for relatively minor offences, and of some who have served considerable time and have shown good behavior. For those who remain there will be provided something of Christmas cheer, in the way of a special dinner or of entertainment. With the exception, it appears, of those held in custody in city police cells. In Calgary at any rate it is reported Christmas will be "just another day" for these, with the usual none too sumptuous dinner, and the drearier monotony of isolation when all the outside world is ringing with merriment.

In Edmonton it is to be hoped this order of things will not be allowed to prevail. At least the inmates of the cells should be given something distinguishable as a Christmas dinner. The added expense to the city would be trifling. And a friendly gesture from the public, in the shape of a dinner reminiscent of happier circumstances, might be worth more than the cost in its influence upon the unwilling guests. These should not be given to think they are beyond the pale of the Christmas spirit, because they, too, have fallen foul of the law, or are being held on suspicion.

Europe's Got Our Winter

Europe is getting the kind of winter usually allotted to this continent, although made for the difference in temperature which makes the weather "cold" there and here. In parts of Russia the mercury has gone down beyond the twenty-five below mark, the French, German and Belgian canals are frozen, while at Lisbon a dredge sank in the ice-chambers.

In the British Isles 25 deaths were reported as due to the exceptional cold and gales, while for the continent the fatalities have reached 50. Except in the southwest counties, England is covered with snow, and every lake is a skating rink.

The ways of the weather are past finding out. None the less it is an interesting speculation why a cold winter in the western hemisphere and it often is—a mild winter in the east, while Europe frequently shivers and suffers in extreme temperatures during a season marked in this continent by exceptional mildness.

The "sun spots" come readily to mind as a possible explanation. But the same sun shines on both continents, and the spots do not appear and disappear with recurrent regularity in a matter of hours. Solar conditions which affect the old world might be expected to affect the new in like manner.

It may not be a matter of pressing importance, since "we can't do anything about it." Still it is a subject of legitimate curiosity; and no one can say now that any diversion in the realm of nature is totally lacking in practical value. Perhaps the men of science can throw light on the problem, or at least hazard a possible explanation.

Safety First

"In the name of Christianity and humanity" provincial authorities and civic authorities are joining forces in an attempt to make Christmas Eve somewhat

more safe and sane than recent predecessors in Toronto "the good." Seventy-three prowler cars will prowl about the streets, while an augmented police force will halt passing motorists and interview the drivers of parked cars, sniff their breathes and "pull them out" if the exhalations carry an aroma of liquor. Beverage rooms—all over Ontario—are to close four hours early, and a violation of traffic regulations in the Queen City means a summons to the police court.

The reason? Last Christmas three persons were killed and 65 injured in traffic "accidents" on Toronto streets.

In Edmonton less stringent preventive measures are being taken, a compliment to the self-control of the residents of this "wild, western" city. But Chief Shute has issued a warning that the police will be out in force, with orders to enforce traffic laws strictly and bring all offenders into court. And in all other centres across Canada there will be, or should be, a tightening of restrictions and close vigilance on the part of law-enforcement officers.

Whether it means that the morale of the nation is slipping, or just that automobiles are getting more numerous and drivers' licenses are issued with too free a hand, the Canadian Christmas celebration has taken on some characteristics a good way removed from the significance of the event, the teachings of its Founder, and the customs of earlier and simpler times.

Before the spirit of festivity is loosened, everyone may ponder with profit the words of Archdeacon Swanson to the Rotary Club in Calgary: "Christmas is a modern time too often degenerates into an orgy of sentimentality, a commercialized festival, or a grand and glorious drunk."

This is not what is flattering, but isn't it the truth?

Editorial Notes

In six days Edmonton people despatched 18,000 Christmas parcels through the mails. This is an immigrant city, in the sense that most of its older residents came here from other parts of the continent or from countries overseas, where they still have close relatives and friends, with whom many of them maintain the good old Christmas custom of exchanging tokens of remembrance.

A group of Montreal started their own particular kind of Christmas celebration early, by drinking a blend of rubbing alcohol and wood alcohol. Four of them are dead, while the hospitals are trying to cheat nature and save the others. The news item in the report is that it comes before Christmas. The days which follow that anniversary usually supply records of such occurrences, and will doubtless do so this year. Perhaps, now they have started divers schemes for adult education, governments and universities should try to teach people that rubbing alcohol and wood alcohol are really dangerous beverages. The newspapers have been trying that for years, and do not seem to have succeeded.

Fifty Years Ago

From the Files of The Edmonton Bulletin

James Martin has been re-engaged as teacher of the senior department of the Edmonton public school system.

A forest fire is raging between the Peace and Bear Hills on the Calgary trail. Lee had two wagons burned and W. Macdonald's trading post was only saved after great exertions. But the fire is being brought under control.

Forty Years Ago

Mr. and Mrs. C. W. Mathews went east on Saturday on a trip.

G. J. Bryan, principal of the Edmonton public schools, went east.

Bank Legal is expected home soon from Europe.

Colin Johnson arrived from the Landing.

Thirty Years Ago

Venice is now to Austria on the Balkan crisis threatens the severance of diplomatic negotiations.

Pittsburgh: Seven aldermen and two bankers appeared in police court today, charged with being bootleggers.

Toronto: Fort William and Port Arthur have started a legal battle as to which of them shall be the Thunder Bay terminus of the G.T.P.

Twenty Years Ago

Paras: King Nicolas of Montenegro says his people would like to become part of Yugoslavia, while preserving their national autonomy.

It is understood that the University of Alberta faculty will see several new additions for next year's work.

Ten Years Ago

The Department of Public Health has issued a bulletin, warning Albertans that an epidemic of diphtheria is sweeping the province and giving instructions to prevent it from spreading.

Ottawa: The Railway Commission dismissed an application for readjustment of freight rates of fresh meat, packaged house products, hide leather, dried fish, and other products sent to Vancouver and Seattle, and ports east and south, for domestic consumption and for export.

Toronto Directors of the International Nickel Co. of Canada met here and offered the Mond Nickel Co. to take advantage of the offer. The deal gave the International Nickel control of nine-tenths of the world supply of the metal.

Current Comment

Is Fascism a Permanency?

Dr. A. L. Sachar, leader of Jewish thought, tells the U.S. Congress that the Jew can outlast the Nazi in Germany.

His statement is probably true. But its veracity depends not so much upon the staying power of the Jewish people as upon the fact that no system of government can be regarded as permanent.

These outgrowings of political frenzy are explicable sections of the great human cycle.

Indeed, if one had the close knowledge of history and the gift for analysis required for such an undertaking, one could not only chart and predict the course of events in the past but also define and formulate work out a very fair forecast of what time would bring in the future.

For the law of action and reaction is constantly at work in human behavior, particularly in politics.

That "there is nothing new under the sun" is probably the most true—and the most horrible—axiom ever uttered.

The conditions that prevail in Europe today have not changed in any way again in other aspects and on other scales. And the conditions that will combat and follow them have also been repeated many times in the earth's full history.

So immutable are the laws of human nature that a man who succeeds in one field and achieves considerable fame in the same field as his predecessor can almost command the same fame.

We recalled that the axiom "there is nothing new under the sun" is a horrible truth. It is however true, we believe, that for us, for my generation, better days than ours are definitely in sight.

And the words of the change that we all look forward to will be no more than repetitions of other phases of history until we are, by our own knowledge and effort, to control our own destinies as to let ourselves out of the beaten track.—Vancouver Sun.

Fashions in the House

Samuel Hoare, who has been lamenting, not quite seriously, the passing of the top-hat and frock-coat traditions of the House of Commons, is old enough to remember one early and deliberate breach in the standard of sartorial correctness for that assembly which was made by an Irish member in the early seventies. The rebel appeared in the House with a straw boater hat, a black waistcoat, a black tie and a white shirt.

Charles Russell, to request the removal of the offending headgear. The wearer, however, flatly refused to remove the bauble.

It was not until three years later that Sir Samuel Hoare, his deuteragonist cap and John Burns made play for the caricaturists with his bowler and referee jacket. In those days the Sergeant-at-Arms kept a strict eye on the dress of members of the Great Assembly, and a dress code which imposed a rather severe curtailment was so greatly resented that in 1872 Charles Russell, to request the removal of the offending headgear. The wearer, however, flatly refused to remove the bauble.

ANTI-JEWISH LAW DRAFTED IN HUNGARY

BUDAPEST, Dec. 23.—A draft of a sweeping anti-Jewish law, designed to reduce to the vanishing point the influence of the Jewish influence in Hungary, was presented last night to the government by the National Unity.

The proposed law, which limits the franchise of Jews and occupies open to them, was brought up by the cabinet. Prime Minister Imreld. Early party approval was anticipated.

Under the statute, Jews would vote separately, 30 days after non-Jews. The government would be responsible for the cost of the immigration by decree law. It was estimated there were about 800,000 assimilated Jews in Hungary, which has a population of about 8,000,000.

In general, Jews would be limited to an average of two journalists, engineering law, medicine and state employment. In business, the percentage varied up to 12 per cent.

German Varsity Being Analyzed

PRAGUE, Dec. 23.—The German university here underwent "aryanization," and the Czechoslovak ministry of education gave 24 Jewish teachers "vacations for an indefinite period." This action was widely taken at a request from Berlin.

Ship 2,000,000 Trees

MOSCOW, Dec. 23.—British Christmas trees, worth the neighborhood of 2,000,000 Christie trees to all parts of the continent, were sent to Nazi-occupied France, Italy, Spain, Portugal, Germany, and Russia and the girl followed a year later. Their mother died in 1928.

Turns Anti-Nazi

TWINS WILL BE IN FT. FRANCES FOR CHRISTMAS

PORT ARTHUR, Dec. 23.—A 15-year-old twin brother and sister, William and Tina Kozik, will be in Fort Frances, Ont., for Christmas at the invitation of their uncle, whose father spent his youth in a Russian prison.

Born in Port Arthur, the twins arrived here Thursday from Gorki, a small town near Moscow.

William's father had been put in prison in Russia and had been there for some time. He did not know what offence he had committed.

"We had no relatives in Gorki," he said, "so we were sent to Port Arthur."

The youngsters were born at Fort Frances of Russian parents. In 1919, when they were 10 months old, their parents came to Canada and the girl followed a year later. Their mother died in 1928.

The Margesson of London, Germany, advocates in England, and personal friend of German Foreign Minister Ribbentrop, personally requested Prime Minister Chamberlain to give a specific pledge that "one individual" to Nazi colonial demands. Lord Longford, former editor of the Jewish magazine in Germany.

NEW YORK, Dec. 23.—An anonymous threatening letters have been received by three celebrities who participated in the opening of the new United Nations building.

Targeted were: Lord Longford, president of the International Institute of World Peace; Dorothy Thompson, political commentator; and Raymond Massey and Walter Huston, Canadian-born actors in Broadway hits.

Miss Thompson's letter said:

"Your speech to all Reds and Jews is the most terrible speech the air marks you as a definite enemy of the new and greater Germany. You are a traitor to your country and must continue. You will pay for your stupidity! Should you attempt to flee, let us, we shall take care of you and yours."

The letters received by Massey and Huston were forwarded to the arts and letters committee, a group of liberal writers and actors, who were asked to consider the matter. Huston started an investigation.

Mayor Fiorello La Guardia, who received the letter, said it was a bomb and a bullet in the mail the two weeks ago. Thursday joined the committee.

New Racket Ended As Metis Jailed

MINNEAPOLIS, Minn., Dec. 23.—Samuel W. Hirsch, 37, arrested in police court here Thursday when J. Henderson, 37-year-old half-breed, was found guilty of shooting J. Fleming to one jail for conspiracy to defraud and false pretenses.

Several municipalities complained Henderson had committed fraud in collecting wolf bounties. Evidence showed he had collected \$1,000 direct with Dr. Frank C. Smith, Arthur Ave., Los Angeles, Calif., and had regular mail order, and a bullet in the mail the two weeks ago. Thursday joined the committee.

KING GEORGE MAY BECOME INDIAN CHIEF

Plans To Confer Honor On
His Majesty Are Now
Underway

TORONTO, Dec. 22 — King George VI may be initiated into a lineage of rulers older even than the monarchy of England when he visits Canada next summer. Plans to confer a chieftainship in Canada's Six Nations Indian tribe upon the King are being considered by the Toronto Indian council.

Dr. J. Susannah, assistant Sachem of the council, said today the honor will be given to the King "as a royal gift" if the royal itinerary permits.

The ceremony would be identical with those which have honored their rulers long before white man ever set foot in Canada.

The procedure was almost universal among the tribes, and still is, among the different tribes, Dr. Susannah said.

SUGGESTED BY SINGING LARK

The idea was suggested by Singing Lark, an adopted member of the Six Nations. Singing Lark's Canadian name is Jim McLean, and he is a member of the council.

The name by which King George will be adopted into the Six Nations will be determined by the Indians. When the Indians of ancient legend honored a mighty warrior or great leader, the beweaved name was similarly selected until recently.

An Indian guard of honor for the sovereigns would also be suggested. If plan mature, the escort will be attired in the plumed headdress and clothing of the Indians of the land from ChAMPLAIN and LaSalle.

**Roosevelt Gets
Hebrew Medal**

NEW YORK, Dec. 23.—Joseph H. Birkin, 21-year-old Hebrew student at the American Hebrew Academy, announced Thursday President Roosevelt had awarded him the 1938 American Hebrew medal for his work in service in promoting better understanding between Christians and Jews.

Dog Is Found

DANVILLE, Va., Dec. 23.—Mrs. Enid Davis lost her dog, placed an advertisement in the Danville Register. William Vernon, who took the ad, returned home at the end of the day to find Mrs. Davis sitting on his front porch.

According To Culbertson

Question 17 of the recent examination was a big disappointment to me, rather the answer were. I had found the right angle. Mr. Mrs. Bridges Player were a great deal braver than they used to be. Apparently he was wrong. This question was:

Both sides vulnerable, the bidding has proceeded:

North East South West

Pass Double 1 spade Pass

1 spade 1 club 1 heart

You are South and hold:

A Q 9 8 4 ♠ J 5 4 3 ♡ 6 2

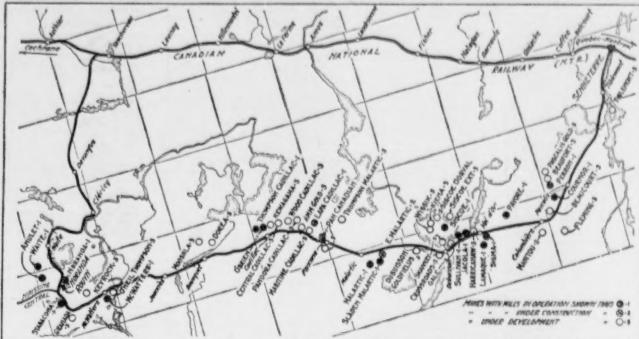

What call do you make now?

The official answer was that South had a doubleton heart and after East placed considerable diamond strength on his right, hence refused to open the suit. Looking for a doubleton, he immediately returned. Declares Jack won and a heart was immediately returned.

Mr. Culbertson says that the heart was immediately returned because he felt that the reader would be inclined to feel that a diamond lead would give declarer at least one diamond to make for himself. He also felt that a diamond lead would make for himself, exit with a heart. West was afraid that a club doubleton would be taken and a diamond made.

When it came to high, the declarer could have run away with the hand, but he did not. West, however, had more forceful than printable.

Dorothy Dix Says:

DEAR MISS DIX—I am a winter person, 22 years old, a widow for the first time in my life. I met a man who meant the world to me. He was brilliant, with radical ideas. I wanted him to be my husband, so I married him. I would have given up my religion, my family, my health, even my diet would have to change. It was a thorough change. I was afraid that I would not be able to make such extreme changes, but I did it, but I was willing to try. But he needed money and he met a woman who had a great deal of influence over him. He married her, although I know he loved me. I am heartbroken over something I think was a foolish mistake. I married him while I had the chance. Then I wonder if it would have been worth the trouble. I have the opportunity of marrying a splendid young man who will make a model husband. He has a good job and a good home. Yet I do not want to be an old maid left with the thoughts of what might have been. Neither do I want to marry again. My doctor advised me to take the good offer I have now, and say love will come afterward. What do you advise?

DISILLUSIONED.

I think that the first thing you should do is offer up thankyou to your guardian Angel for having saved you from marrying a man who was not good for you. That was antagonistic to yours. No marriage can be happy if it is not based on mutual trust and no love can exist in the face of constant friction between a husband and wife over not only the big things of life but the little things of everyday living.

You may think while you are reading this part of this most personal fascination that you would be willing to give up everything for him. You would be right. But if you tried it, that you would get mighty tired of being made the sacrifice. And you would feel the pressure. Moreover, it is not possible for us to make ourselves over at another's bidding. If we change, it is because we want to change ourselves. You would discover that after you had renounced your right to be yourself, that you were not still in them. Just as firmly as ever. When you sat down to eat, you would feel that you would starve for the food to which you were accustomed.

The most dishonest thing a woman can do is to marry a man who loves her when she does not love him. She can't be expected to feel affection if she has none to give him; she chases him far more than if she had definite love in her heart. If all else fails, take the name of the home he gives her, his support, and she gives him nothing in return. DOROTHY DIX

What To Do

When serving a company dinner with a maid, make the table and have the maid set it when the guests enter the dining room. I want to make the serving as simple as possible, but at the same time not do it incorrectly.

MRS. E. M. E.

Answer.—If your first course is one that requires a lot of preparation fruit cup or a plate of hors d'oeuvres—it will save extra service to have it on the table when the meal is served. But if you are having soup, which would go cold if not eaten immediately, it would not save time to have it on the table until seated. But why not choose your menu with reference to your requirements? If you are having soup that won't stand up. And while individual salads do not usually appear on the menu, they are the best part of dinner, why not have your salad attractively arranged in a salad bowl on the table, but serve it when the meal comes.

This is a new custom that has many reasons to recommend it.

A perfect costume slip with beautifully smooth line to flatter your new frocks. The low-cut brassiere top, moulds the bosom. It has a slim diaphragm to give the waistline a trim. The wide elasticized supple skirt with snug high flares for walking comfort. Think of it! There's no better way to look!

The coat is so moderate! You'll want to make some for Xmas gifts. They'll be received with hearty welcome. The coat is made of washable shades of washable silk crepes and crepe satin as well as from the pastel chocoates.

Style No. 2958 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50.

Send 15 cents in coins for pattern. Write plainly your Name, Address and Style Number. Be sure to state Size. Address order to The Edmonton Dress Department, Edmonton, Alberta.

Our new fall pattern book has over 100 designs. Price \$1.00. New York style Holly-wood designs—suggestions for holiday gifts—beauty contests—etc.

Snow, Rain, Fog Continues Tie-Up Britain's Travel

EDMONTON, Dec. 23.—Snow, rain and fog continued to tie up Great Britain's communications last night as the cold wave reluctantly receded.

Many roads still were snowbound and some villages cut off. Long distance travel was held up as two hours late. Fog stalled all shipping in the Thames estuary.

The weather was bad enough in Christmas small and various empire points were delayed at Birmingham because of a Maestra five. Friday's first scheduled landing point is frozen.

The forecast indicated snow, sleet and rain, with strong winds and rain. The southeast coast shivered in sub-freezing cold but the temperature reached 46° in the southwest.

The King and Queen, with Queen Mother, attended a service and drove through thick snow from Wolverhampton station for the customary family Christmas at Sandringham. This is a new custom that has many reasons to recommend it.

Minute Make-Ups

Illustration of a woman's face with makeup applied, showing the results of a minute make-up.

Chamberlain Card Bears Airplane

EDMONTON, Dec. 22.—Prime Minister Chamberlain's Christmas card bears the picture of an airplane symbolizing his historic flights which culminated in the Munich agreement.

Under the picture is the simile caption: "Munich, September 29."

—

Sound vibrations of even quality regularly give rise to smooth sounds, which we recognize as musical notes; when of complicated or uneven quality, they produce a "noise."

SECOND SECTION

Club Pilots Aid Weather Forecast

Associated with the Edmonton Club Pilots, the weather forecast is based on the reports of the members.

AROUND THE TOWN

Speaking at a meeting of the Club Pilots, Tom McLean said:

"Timber fire racing east up the valley, we have been told, has been stopped by the rain."

Arrangements have been made to have the Bullock school name written on the plaque.

Hon. Ernest C. Manning, minister of public works and setting premier in the absence of Premier Aberhart, is a Calgary visitor. He will return home Saturday.

Appeal is being taken by the Canadian Legion to the government to increase the amount of money given to the Legion for its work.

The Inquiring Reporter

Answers to your questions are given in this column.

JOHN H. HARRIS, barrister: What is it Ambassador Kennedy said on his return to the United States? He is out of touch with the news, he says.

MRS. E. RUTHERFORD, Chamber of Mines: Well and see. That is a good question.

F. G. GRIFFIN, Canadian Legion secretary:

Some time ago I was asked why the Legion had not done more to help the miners. They have not. I feel that really they have done all they can do.

CARL ROSS, University student:

It is a good idea to go to the movies. They are good for you. I feel that you should go to the movies more often.

Government Now Gets a Calendar For Resources

For the first time in its history the Alberta government is issuing a calendar for 1940, for use of schools, business firms, clubs and trade groups which promote the use of our natural resources.

The calendar is divided into four parts: Home, Farm, Business and Education.

Delinquency Count

Richard, Donald and Allen G. Chapman, three young residents, were found guilty by His Honour Judge J. L. Crawford in court yesterday. They were charged with wilfully failing to pay a penalty of \$100 for failure to pay their taxes for 1938.

They had pleaded against conviction and a six-month sentence imposed on them by Police Magistrate J. W. Chapman.

HIGH SCHOOL

5. English First Year: Correct the following sentence: "I have a brother." 6. French: "Qui est-ce?" 7. Geography: "Third Year: What is the name of the country between France and Germany?"

8. History: "Fourth Year: When did the French revolution begin?"

9. Mathematics: "Solve the equation $x^2 - 4x + 4 = 0$."

10. Science: "What is the name of the element which has the atomic number 10?"

11. Chemistry: "What is the name of the element which has the atomic number 11?"

12. Biology: "What is the name of the element which has the atomic number 12?"

13. Physics: "What is the name of the element which has the atomic number 13?"

14. Chemistry: "What is the name of the element which has the atomic number 14?"

15. Biology: "What is the name of the element which has the atomic number 15?"

DAME NATURE SENDS WHITE YULE TO CITY

Snow Throughout North Ends Visits Of "Green" Christmas

After having waited in indecision for the past week old Mother Nature has apparently finally made up her mind to give Edmonton and most of Alberta a "white" instead of a "green" Christmas. At noon Friday the temperature was 20 degrees below zero, the thermometer had been "frozen off," the trees were bare, the feathers had, and fine flakes of snow were beginning to fall from a steel-grey sky.

At 10:30 a.m. when the first flake of snow fell, H. R. Milner, K.C., president of the Alberta Conservative Association, who was in charge of the Maccabees' annual Christmas party at the Maccabees' hall, said: "Hon. R. Bennett former party national master."

President

H. R. MILNER, K.C.,
president of the Alberta Conserva-
tive Association, who was
in charge of the Maccabees' annual
Christmas party at the Maccabees'
hall, said: "Hon. R. Bennett former
party national master."

PLANS MADE FOR WELCOME R. B. BENNETT

Former Prime Minister Will Be Feted on Visit Here January 6

Edmonton and sister communities Thursday night completed plans for the reception to the Right Hon. R. B. Bennett, former prime minister of Canada, who will pay a farewell visit to Edmonton on January 6. It is expected he will take up residence near London.

He will be the guest of honour at a dinner at the Maccabees' hotel which will be presided over by H. R. Milner, K.C., president of Alberta Conservative Association. The banquet

will follow the banquet a reception will be held at the Maccabees' hall, at which W. Donald G. Ross, G.C., minister of the Canadian navy,

and Hon. R. D. Tuggey, K.C., president of the West Edmonton Conservative Association, and Sir Harry G. Green, president of the Canadian Chamber of Commerce, will be present. Mr. Bennett will be entertained by the present Alberta premier, Mr. Bennett with an illuminated address.

CRAIG PRESIDES

Following the banquet a reception will be held at the Maccabees' hall, at which W. Donald G. Ross, G.C., minister of the Canadian navy,

and Hon. R. D. Tuggey, K.C., president of the West Edmonton Conservative Association, and Sir Harry G. Green, president of the Canadian Chamber of Commerce, will be present. Mr. Bennett will be entertained by the present Alberta premier, Mr. Bennett with an illuminated address.

275 HAMPERS PREPARED BY SALVATIONISTS

Army Will Provide Turkey Dinner For 400 On Dec. 26

Satellite Army workers are busily distributing 275 Christmas hampers to needy families in the city as part of their campaign to aid the unfortunate who might otherwise go through the Christmas season without a meal. The organization of the Masonic Lodge No. 1, Satelite Army, has been active in the distribution of food and clothing to the unfortunate throughout the year.

MERCURY FALLS

Edmonton's Mercury Falls, Inc., has announced that its 25th annual "Rocky" will be held Saturday, December 24, at 8 p.m. in the new 1,000-seat auditorium.

Books on the same day will be \$1.50 each, and the price of admission to the show will be 50 cents.

SEVEN RELEASED FROM FORT JAIL FOR CHRISTMAS

Seven men released from Fort Saskatchewan jail Thursday afternoon and left Edmonton for their homes or various parts of the province, as well as those for Crimson Wardens J. D. McLean and Curtis.

Some of these released have been serving time as labourers and some as members of the security force. It is possible that others may be serving community time or ticket-of-leave, while those released have been serving time as labourers.

Those released will be granted one month's leave with the exception of their terms in the nearest police officer or some other duties.

WINGS

Completing the pre-Christmas trip to Edmonton, Bob Hannan, of Moose Jaw, and his wife, Mrs. Louise Bellance, B.K.V., arrived back at Edmonton Thursday afternoon.

Included in his load were 12 packages sent to citizens in and around the city, and a full crew of "extas" to keep the post office busy.

NO SALARIES

None of the Salvation Army officers working on the investigation of the fire at the Canadian National Bank in downtown Edmonton will receive salaries for the days of the tragic accident.

Work of the Salvation Army is being carried on by public and for the purpose. Army workers have been assigned to the fire scene and the downtown streets, where they are helping to keep the public informed of the latest developments.

Cut Salaries For Cabinet Ministers

Completing the pre-Christmas trip to Edmonton, Bob Hannan, of Moose Jaw, and his wife, Mrs. Louise Bellance, B.K.V., arrived back at Edmonton Thursday afternoon.

Included in his load were 12 packages sent to citizens in and around the city, and a full crew of "extas" to keep the post office busy.

Yuletide Greetings

Edmontonians are invited to the Yuletide Greetings of the Salvation Army in Canada, to be held at the Canadian High School, 1000 Lakeshore Road, on Saturday afternoon from 2 to 4 p.m.

Premier Leaves On Vancouver Holiday

Brian White, Alberta's attorney general, will spend the Christmas vacation with Mr. Aberhart. The premier, however, will be in the city next year. Hon. Ernest C. Manning, minister of trade and industry, and the other cabinet ministers will be in the opposition.

Youth Sentenced On Theft Charge

EDMONTON, Dec. 23.—Alfred L. Carson, 16, of 1000 Lakeshore Road, was sentenced to 10 months imprisonment for breaking and entering.

The boy, who had been accused of robbing a drug store, admitted he had stolen the money and was sentenced to 10 months.

Two U.S. Fliers Killed In Crash

NORFOLK, Va., Dec. 23.—Two United States army fliers were killed in a plane crash in the mountains. The two Lieutenant Eddie Gillis of Beaver Falls, Pa., pilot, and Private Charles A. Johnson, co-pilot, were flying in bad weather en route to a landing field.

They had a different idea, though, and went into the clouds, crashing. They were a good pair, though. Captain Johnson expressed that he and his man had always been looking for the range of their shooting skills.

Spurious Bills Passed In City

A Jasper aviator reported to police that two bugs, Imperial Bank \$5 bills, were passed to him by customers, one on Wednesday and one on Thursday. The bills were passed to him over the strong light from an ejection machine revealed to him.

They had a different idea, though, and went into the clouds, crashing. They were a good pair, though. Captain Johnson expressed that he and his man had always been looking for the range of their shooting skills.

Two U.S. Fliers Killed In Crash

NORFOLK, Va., Dec. 23.—Two United States army fliers were killed in a plane crash in the mountains. The two Lieutenant Eddie Gillis of Beaver Falls, Pa., pilot, and Private Charles A. Johnson, co-pilot, were flying in bad weather en route to a landing field.

They had a different idea, though, and went into the clouds, crashing. They were a good pair, though. Captain Johnson expressed that he and his man had always been looking for the range of their shooting skills.

MACCRAE CROWNED WESTERN CANADA WELTER KING

Calgary Fighter Outpoints Thomson

Black Diamond Boxer Badly Whipped in Gory Battle; Mushy Callaghan Wins In Preliminary Bout

CALGARY (UPI)—Black Diamond boxer Jim MacCrae, 22, was crowned Western Canada welterweight champion last night when he beat Harry Thomson, 22, of Brandon, Manitoba, 15-12.

In dethroning the title-holder, MacCrae won nine rounds. Thomson's lightweight championship was not at stake as MacCrae weighed in at 141 pounds, three more than his opponent.

It was a sensational fight from start to finish, with 2,000 fans filling the arena.

Dodgers Complete Deal For Montreal Baseball Machine

NEW YORK, Dec. 23—Brooklyn Dodgers Thursday completed the purchase of the Montreal Royals, the National League baseball farm system.

James McDonald, general manager

of the Montreal team, said

he had never

had reason to

suspect that the

team would be sold

but he had been

asked to do so

and he had done

so.

The sale was agreed

upon last Friday

and the deal

was closed

at 12 o'clock

today.

McDonald

had been asked

to sell the team

by the new

owners.

He said he

had no objection

to the sale

but he did not

know who the

new owners

were.

World-Wide News Pictures By The Edmonton Bulletin Cameramen

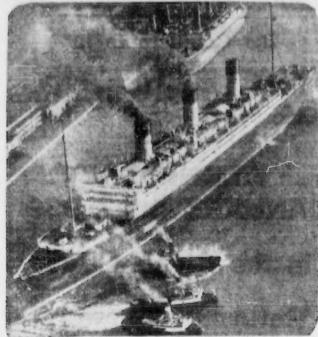

The Far East Has Its Refugees Too

Musky is rampant in this photograph of Chinese refugees, made after they had poured by the thousands into the British colony of Hong Kong when word reached them that the Japanese invaders were

nearly. More than 60,000 sought sanctuary in the colony in less than twelve hours. Included in the lot were many Chinese soldiers, dressed in civilian clothes, who wished to escape the horror of the war.

Her Last Voyage

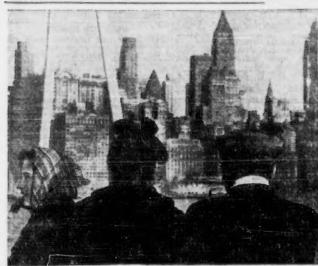

Once famous as the largest vessel afloat, the Berengaria is on her way to the "boneyard." She is shown here leaving Southampton, England, bound for Liverpool. The liner's long life will be over.

Puzzle: Find The Celebrities

Omnipresent Grover Whalen grabs spotlight from disinterested Mr. and Mrs. Anthony Eden as British visitors were treated to routine tour of New York fairgrounds.

Safe Harbor At Last

Their eyes turned to the famous skyline of Manhattan, a group of refugees from Germany is shown at the rail of the S.S. Nieuw Amsterdam as the liner steamed up New York bay.

Baby Peggy Bride-to-be

They're going to marry. Playwright Gordon Ayres and Peggy Montgomery, who was the famous "Baby Peggy" of the films not so long ago.

A Tragic Christmas

Harold Johnson and his wife Elsie, centre above, answering a door at their Brooklyn home, faced Harry Hines, a former friend. He angrily accused Johnson of having caused the man's death and shot him three times with acid at them. Johnson died from the burns, and Mrs. Johnson was painfully seared. Two children, Richard, 3, left, and Florence, 12, behind her mother, were also burned. Dorothy, 9, right, escaped. Hines was arrested for homicide.

Housing Project

Wearing Millions

About two and a half million dollars' worth of jewels flashed at London's recent "Beau Geste" party. Lady Bridget Poulett, left, wore a million dollars in pearls alone. Mrs. Charles Sweeney, right, displayed a fortune in diamonds and rubies.

A Look Into The Future

Mrs. Neville Chamberlain, wife of Britain's prime minister, looks into the future when she had her palm read by a fortune teller at the annual Christmas bazaar which she opened in London recently. The bazaar is an annual affair for the benefit of the Glastonbury London Fund for the Blind.

Important Figures At Pan-American Conference

Dr. J. M. Caamaño disembarks at Lima, followed by Dr. Carlos Concha, foreign minister and head of Peru's delegation to the conference. Dr. Caamaño, Argentine foreign minister, is advising the important delegation from his country. At left: Secretary Hull and Alf Landon at the conference. Mr. Landon learned the Lambeth Walk at a Lima night club—but surely not in those pants.

Questioned

Colette d'Arville, French actress and opera star, was questioned in New York in connection with the New York smuggling investigation.

U.S. Navy's Newest Blimp

Seven men form the crew of this 246-foot airship built for the navy in Akron, O. Two 550-horse-power motors furnish power. Maiden trip will be to Naval Air station at Lakehurst, N.J.

Captainess

Mrs. Otto C. Munson is pictured here in her New York home after it had been learned that she had become the bride of Captain Blodman, commanding officer of the U.S. aircraft carrier Zerbe, now in Washington. Mrs. Blodman is the former Mrs. Florence Lewith Stoddard of Montreal, widow of Col. Stoddard.

First Nazi Aircraft Carrier

Latest addition to the German navy is the Graf Zeppelin, first aircraft carrier ever built by the Reich and named after the country's famous airship inventor. The new 18,300-ton craft is seen being towed across the Deutsche Werke yard at Kiel, Germany, after the launching ceremony, which was attended by Hitler, Goering and other high German officials.
